Dear Parents,

Summer is a great time to recharge and rejuvenate. It is a long stretch in the life of a child, and it's extremely important for students to review over the summer in order to retain what they learned during the school year. By utilizing this program, your child will, IY"H, with a minimum of effort, solidify the wealth of learning skills that he has mastered over the past year. There is also a strong Chinuch message about the importance of Torah learning even when we are not in school.

This packet contains material prepared by your son's Rebbi for review over the summer. The 1st and 2nd grade packets are primarily focused on Kriah as this is the most foundational skill for all future learning. Older grades are more focused on material learned this year. The packet does not have to be used for the summer learning but it is encouraged.

The boys are being offered incentives to motivate them to participate in this summer learning program. More days of learning will get the boys to higher levels of prizes. See the attached calendar and prize catalog for more information. For a day to count, boys in 1st and 2nd grade need 3 - 5 minutes of adult supervised Kriah, and boys in older grades need 10 minutes of Torah learning.

Please avail yourselves of this golden opportunity. The enhancement to your child's future learning through this program is inestimable. If you have any questions, please reach out to your son's Rebbi.

Have a wonderful and productive summer!

With all best wishes,

Rabbi Kalman Baumann Rabbi Noam Grossman Rabbi Gavriel Grossman

### Dear Third Grade Parents,

I have had a wonderful time learning with your son this year! Enjoy the opportunity to review the skills that he has put much effort into this year. Below is an explanation of the material found in this packet.

If your son would like to receive credit, please <u>initial</u> the appropriate box when he completes each task. He will be asked for the completed packet at the start of fourth grade.

- 1. <u>תפילה</u>: Although this is not officially part of the program, your son should daven every day.
- 2. <u>שרשים</u> (VERBS): Your son should review the שֹרְשִׁים from the list. He can even test himself by "hiding" the English as he practices.
- 3. מלים (HIGH FREQUENCY WORDS): Your son should review the words from the list.
- 4. דקדוק (GRAMMAR): Review using the דְקְדוּק list to preserve the valuable skills covered this year. These include prefixes, suffixes, etc...
- 5. רש"י (RASHI): These pages review the Rashi letters.
- 6. קריאה וכתיבה (READING AND WRITING): Your son will gain tremendously by reading and writing whatever he can. These sheets practice reading Rashi script, and writing in plain Hebrew script.

This review is primarily an oral one, but if your son feels that he would retain the information better through writing or movement, please encourage him to do so.

Have a wonderful summer!
